DIGITAL MARKETING SRS PROJECT

 “Delivering Emotions, not just Food”

Digital Marketing Strategy of Zomato

Course Name: Digital Marketing

Submitted by: Shrutika Nirpal

Course: MBA

College Name: DPGU School of Management and Research

1. Introduction

In today's digital era, the way people consume food has changed significantly. With increasing internet usage and smartphone penetration, customers now prefer ordering food online rather than visiting restaurants. Convenience, speed, and variety have become key decision factors.

Zomato has emerged as one of the leading platforms in the food delivery industry by not only providing services but also creating a strong emotional connection with its users. It uses digital marketing in a very innovative way—through humour, personalization, and relatable content.

Unlike traditional marketing, Zomato focuses on engaging customers in their daily lives. Whether it's late-night hunger, work stress, or celebration moments, the brand positions itself as a solution for every situation.

This project aims to study how Zomato uses digital marketing strategies to influence consumer behaviour and build a strong brand presence.

2. Brand Overview

Zomato is a well-known food delivery and restaurant discovery platform that allows users to search for restaurants, read reviews, and order food online. It operates in multiple cities and serves millions of customers daily.

What makes Zomato unique is its distinct brand personality. Instead of using formal communication, it interacts with users in a friendly and humorous tone. Its marketing messages often feel like conversations rather than advertisements.

Zomato has successfully built a brand image that is:

- Fun and engaging
- Youth-oriented
- Emotionally relatable
- Digitally strong

This approach helps the brand stay connected with its audience and stand out in a competitive market.

3. Target Audience

Zomato primarily targets urban and semi-urban consumers who prefer convenience and quick service.

Demographic Details:

- Age Group: 18–40 years
- Gender: All

- Location: Cities like Pune, Mumbai, Bangalore
- Occupation: Students, working professionals

□ Behavioural Traits:

- Frequently order food online
- Active on social media
- Influenced by discounts and offers
- Prefer fast and hassle-free service

👤 Example Persona:

Riya, a 22-year-old MBA student living in Pune, often orders food during late-night study sessions. She prefers apps that are easy to use and offer discounts. Zomato becomes her first choice because of its relatable notifications and fast delivery.

This shows Zomato targets not just people, but their lifestyle and habits.

4. 🗡️ Competitor Analysis

The food delivery industry is highly competitive. Zomato faces competition from:

- Swiggy
- Uber Eats

These platforms offer similar services like food delivery, discounts, and quick service.

🔍 Competitive Advantage of Zomato:

- Strong social media presence
- Creative and humorous content
- Emotional branding
- Personalized communication

While competitors focus more on pricing and speed, Zomato differentiates itself through customer engagement and brand personality.

5. 🎯 Marketing Objectives

Zomato's digital marketing strategy is designed to achieve both business and emotional goals.

✦ Key Objectives:

- Increase brand awareness among young users
- Boost app downloads and installations
- Increase daily food orders
- Improve customer retention and loyalty
- Build long-term emotional connection with users

These objectives help Zomato maintain its position as a market leader.

6. 📱 Digital Marketing Platforms Used

Zomato uses multiple digital platforms to reach and engage its audience effectively.

🌐 Platforms:

- **Instagram & Facebook:** For memes, reels, and engagement
- **YouTube:** For storytelling and advertisements
- **Google Ads:** For search-based marketing
- **Email Marketing:** For offers and updates
- **Push Notifications:** For direct communication

💡 Special Highlight:

Zomato's push notifications are highly creative and personalized. They often use humour and emotions, making users more likely to open the app.

7. 🧠 Content Strategy

Content is the core strength of Zomato's marketing.

✦ Types of Content:

- Funny memes and trending posts

- Short videos and reels
- Festival-based campaigns
- Discount and promotional content
- Influencer collaborations

💡 Unique Approach:

Instead of directly promoting products, Zomato focuses on entertainment and relatability.

Example:

👉 “Your diet starts tomorrow 😊”

Such content increases engagement and makes the brand memorable.

8. 🎯 Campaign Objectives

Zomato designs campaigns with clear and measurable goals.

📊 Objectives:

- Increase social media followers by 20–25%
- Generate more app installs
- Increase order frequency
- Improve engagement rate
- Encourage repeat purchases

These campaigns help in attracting new users and retaining existing ones.

9. 📊 KPIs (Key Performance Indicators)

To measure success, Zomato tracks various performance indicators:

- App downloads
- Website/app traffic
- Engagement rate (likes, comments, shares)
- Conversion rate (orders placed)

- Customer retention rate

These KPIs help the company understand customer behaviour and improve strategies.

10. ✂ Tools Used

Zomato uses different tools for marketing and analysis:

- Canva – for designing creatives
- Google Analytics – for tracking user activity
- Social Media Insights – for engagement data
- Google Ads Manager – for running ad campaigns

These tools help in making data-driven decisions.

11. ✂ Creative Insight (Added Value)

Zomato's biggest strength lies in its ability to connect emotionally with users.

It understands that food is linked with:

- Mood
- Stress
- Celebrations
- Comfort

By targeting these emotions, Zomato turns a simple food order into an experience.

12. 🎬 Conclusion

Zomato has successfully transformed digital marketing by combining creativity, technology, and emotional intelligence. Its unique approach of using humour, relatable content, and personalized communication helps it stand out in a competitive market.

The brand has moved beyond traditional marketing and created a strong connection with its audience. As a result, Zomato is not just a food delivery platform but a part of customers' daily lives.

✍ In conclusion, Zomato proves that successful marketing is not only about selling products but about building relationships with customers.

Project 2: SEO Audit and Optimization

SEO AUDIT AND OPTIMIZATION REPORT ON MAMAEARTH

Name: Shrutika Nirpal

Brand: Mamaearth

College: DPGU School of Management and Research

Specialization: Marketing

Introduction

Search Engine Optimization (SEO) is one of the most important digital marketing strategies used to

improve the visibility of a website on search engines. A higher ranking on search engines helps a

brand attract more users, increase traffic, and improve sales.

Mamaearth is a well-known Indian skincare and personal care brand that focuses on natural, toxin-free, and eco-friendly products. The company has built a strong online presence using digital

marketing strategies, influencer marketing, and e-commerce platforms.

This project aims to perform a detailed SEO audit of the Mamaearth website to understand its strengths, weaknesses, and areas of improvement.

Objectives of the Study

- To analyze the SEO performance of Mamaearth website in detail
- To study on-page, off-page, and technical SEO factors
- To identify key issues affecting search engine ranking
- To provide practical suggestions for improvement
- To understand the role of SEO in digital marketing

Research Methodology

Element		Description
• Type of Research	-	Descriptive
• Data Source	-	Secondary Data
• Tools Used	-	Google Chrome, Uber suggest, Google Page Speed Insights
• Area of Study	-	Website SEO Analysis
• Method	-	Observation and Analysis

On Page SEO Analysis

Title Tag Analysis

The title tags used on Mamaearth website are relevant and include important keywords related to products. However, some titles can be made more attractive and engaging to improve click-through rates.

Meta Description

Meta descriptions are present on most pages and provide basic information about the content. However, they lack strong call-to-action phrases such as ‘Buy now’ or ‘Shop Today’.

URL Structure

The URL structure of the website is clean, simple, and SEO-friendly. It helps both users and search engines understand the content easily.

Heading Tags

Heading tags such as H1, H2, and H3 are used to structure content. However, some pages may have multiple H1 tags which is not recommended.

Content Quality

The content is simple, informative, and user-friendly. It highlights product benefits clearly. However, the website lacks detailed blog content which can improve SEO performance.

Image Optimization

The website uses high-quality images to attract users. However, some images do not have ALT text, which is important for search engine indexing.

Technical SEO Analysis

Technical SEO focuses on improving the backend structure of the website. Mamaearth performs well in some areas but needs improvement in others.

Website Speed

The website speed is moderate. Large image sizes and scripts may slow down loading time. Faster websites improve user experience and ranking.

Mobile Friendliness

The website is fully responsive and works smoothly on mobile devices, which is important as most users browse through smartphones.

Website Security

The website uses HTTPS protocol which ensures data security and builds trust among users.

Broken Links

Very few broken links are found, indicating good website maintenance.

Off-Page SEO Analysis

Off-page SEO refers to activities done outside the website to improve ranking.

Backlinks

Mamaearth has a strong backlink profile from various websites, blogs, and media sources which increases its authority.

Domain Authority

The domain authority of the website is high, indicating strong trust and credibility.

Social Media Presence

Mamaearth is very active on social media platforms like Instagram and Facebook. This helps in increasing brand awareness and Engagement.

Competitor Analysis

Competitors such as WOW Skin Science and Biotique also operate in the skincare segment. These competitors focus more on content marketing and blogs. Mamaearth is stronger in branding and influencer marketing, which gives it a competitive advantage.

Findings

- Strong brand presence in digital market
- Good backlink profile and domain authority
- Moderate website speed
- Limited blog and content marketing

Suggestions

- Improve keyword optimization across pages
- Add more blog content for SEO improvement
- Optimize images to improve speed
- Improve meta descriptions with CTA

- Increase backlink strategies

Conclusion

Mamaearth has a strong SEO foundation and excellent brand visibility. With improvements in technical SEO and content marketing, the website can achieve higher rankings and better performance in search engines.

Project 3: Social Media Content Strategy & Calendar

SOCIAL MEDIA CONTENT STRATEGY AND CALENDER REPORT ON MAMAEARTH

Name: Shrutika Nirpal

College Name: DPGU School of Management and Research

Brand Name: Mamaearth

Introduction

This project presents a detailed and practical approach to designing a 30-day Instagram content strategy. The focus is on enhancing engagement, brand awareness, and audience interaction using structured planning.

Brand Overview

Mamaearth is a leading Indian personal care brand known for its toxin-free and natural products. It targets young consumers through digital platforms and focuses on transparency and trust.

SWOT Analysis

Strengths: Strong digital presence, natural products

Weaknesses: High competition

Opportunities: Growing skincare awareness

Threats: New entrants in market

Competitor Analysis

Key competitors include Nykaa, Wow Skin Science, and Plum. These brands also use Instagram reels and influencer marketing effectively.

Objectives

- Increase followers by 20%
- Improve engagement rate
- Build strong brand recall
- Increase interaction through reels

Content Strategy

The strategy includes reels (high reach), posts (information), and stories (engagement). A mix of educational, promotional, and entertaining content ensures audience retention.

Hashtag Strategy

Use trending and niche hashtags like #Mamaearth #SkincareRoutine #NaturalBeauty #Glowingskin #Organicproducts

Detailed 30 Day Content Calendar

Day	Content Type	Content Idea	Caption	Hashtags
1	Reel	Product Introduction	Glow naturally with Mamaearth 🌿	#mamaearth #skincare #organic
2	Post	Skincare Tips	5 skincare tips you must follow ✨	#glowingskin #beauty
3	Story	Poll	Which one is your favourite? Vote now!	#poll #engagement

28	Story	Poll	Your opinion matters!	#poll
29	Reel	Morning Routine	Morning routine 🌞	#morningroutine
30	Post	Summary	Thank you for your love 💖	#community

Analytics & KPIs

KPIs include reach, impressions, engagement rate, and follower growth. Instagram Insights will be used to measure performance.

Expected Results

The strategy is expected to improve visibility, engagement, and customer interaction significantly.

Conclusion

This project highlights the importance of structured content planning in digital marketing. A consistent and creative approach leads to better results.

Project 4: Google Ads Campaign Planning

Google Ads Campaign Planning on Mamaearth Ubtan Facewash

Name - Shrutika Nirpal

Course - MBA Marketing

Product - Mamaearth Ubtan Facewash

College - DPGU School of Management and Research

Introduction

Google Ads is one of the most effective online advertising platforms that allows businesses to promote their products and services through search engine results and display networks. It uses a pay-per-click (PPC) model where advertisers pay only when users click on their ads. This platform helps businesses target specific audiences based on keywords, demographics, location, and interests.

Campaign Objective

The objective of this campaign is to promote :

- Ubtan Facewash
- increase brand awareness
- drive website traffic
- generate potential leads

The campaign also aims to educate users about the benefits of natural skincare products.

Product Details

Ubtan Facewash is a herbal skincare product made using natural ingredients such as turmeric, sandalwood, and saffron. It helps in improving skin texture, removing impurities, and providing a natural glow. The product is chemical-free and suitable for all skin types.

Target Audience

The target audience includes individuals aged between 18–35 years. Both male and female users are targeted. The geographical focus is India, and the audience includes people interested in skincare, beauty products, organic living, and personal care.

Keyword Strategy

Keywords are selected based on user search intent. Relevant keywords help in displaying ads to the right audience.

Keyword Type Examples

Keyword Type	Examples
Primary Keywords	Ubtan facewash, Natural Facewash
Secondary Keywords	Herbal Skincare, Glowing Skin Facewash
Long Tail Keywords	Best chemical free facewash in India

Google Ad Campaign Screenshots

ads are being deprecated - Update to call assets by February 2027.

Budget and Bidding Strategy

The campaign uses a daily budget of n200 with CPC (Cost Per Click) bidding. This ensures cost efficiency as payment is made only when users click on the ad.

Expected Results

Metric	Expected Value
Impressions	5,000-10,000
Clicks	200-500
CTR	3%-5%
Conversions	20-50

These results indicate that the campaign is expected to perform effectively with proper targeting and optimization.

Learning Outcome

This project helped in understanding Google Ads campaign structure, keyword research, ad copywriting, audience targeting, and budgeting strategies.

Conclusion

The Google Ads campaign for Ubtan Facewash is designed to effectively reach the target audience and improve brand visibility. With proper keyword selection, engaging ad copies, and attractive banners, the campaign can generate good traffic and conversions.

Project 5: Email Marketing Funnel Creation

EMAIL MARKETING FUNNEL CREATION FOR LAKME

Name – Shrutika Nirpal

Course- Marketing

College – DPGU School of Management and Research

Product

Lakme is a cosmetic brand offering products like lipstick, foundation, sunscreen, and skincare items used for daily beauty needs.

Lead Magnet

Customers are offered 20% OFF on their first purchase along with free beauty tips when they sign up using their email.

Audience

The target audience includes new users who are exploring products, makeup lovers who regularly buy cosmetics, and existing customers who already trust the brand.

Funnel Flow

The email funnel works step-by-step: first user signs up, then receives a welcome email, followed by product information, beauty tips, promotional offer, reminder, and feedback email.

Landing Page

Landing page includes attractive headline, product images, benefits, email signup form, and a

strong call-to-action like 'Get Your Offer Now'.

Performance Metrics

Open Rate expected is 20–30%, Click Through Rate is 5–10%, and Conversion Rate is 2-5%.
